EC Regulation 1907/2006 (REACH) Statement

On December 18, 2006, the European Parliament and the Council of the European Union adopted a regulation on chemical substances, titled Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH"), EC No. 1907/2006. **US Digital's products are not required to be registered as there are no known or intended releases of chemical substances under normal or reasonably foreseeable conditions from the use of US Digital's products. In addition, USD does not import more than one metric ton of any of the substances on the SVHC list into the European Union in any given year.**

US Digital understands that accurate compliance information is necessary to high quality product and customer service, and we are committed to providing our customers with accurate, current product information. Our compliance efforts include consciously monitoring the ECHA "Candidate List" for additions and updates and evaluating each of our products for the presence of any declarable substances. Our evaluation processes focus on inquiries through our supply chain, submitted to the manufacturer or distributor of raw materials. As our process is reliant on third party information, we can confirm compliance status to the best of our knowledge.

If a REACH compliance declaration is required for a specific product, please email compliance@usdigital.com with the following:

- Customer Name
- Part Number
- Order Number

Please let us know if you have any questions.

Thank you,

Name: Neal Donowitz
Position: Chief Operating Officer
