RoHS-EU Directive 2011/65/EU (RoHS 2) Certificate of Compliance

The Directive requires that the homogeneous materials within new electrical and electronic equipment must contain less than 0.1% by weight of lead, mercury, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE) and less than 0.01% Cadmium. A list of exemptions for the use of the above substances in specific items is given in Annexes III and IV of Directive 2011/65/EU. In situations where an exemption applies, the preceding limits, corresponding to the exempted substance(s), may be higher.

US Digital is committed to compliance with all applicable regulatory requirements and works diligently with our supply base to maintain accurate, current information. Products that are compliant with RoHS Directive 2011/65/EU have a Declaration of Conformity sent at time of shipment, as well as information on product page of US Digital website.

US Digital Corporation certifies that products purchased after 2016, and within standard product lines (with exception to products listed below) are compliant to Directive 2011/65/EU (RoHS2).

The following product categories require specific review and verification of compliance to ensure the accuracy of information and fall outside US Digital's blanket RoHS Declaration.

- Products purchased prior to 2016
- Custom Products
- Products within the following product lines: ED3, USB4, QSB, SEI-USB, MD2S, Power Supplies, PE Encoders

To request declaration please email compliance@usdigital.com with Company Name, Part and Order Number.

Please let us know if you have any questions.

Thank you,

Name: Neal Donowitz
Position: Chief Operating Officer
