

Conference

Current developments and solutions with a clear-cut relevance to applications distinguish the lectures and tutorials at the SPS/IPC/DRIVES conference. It is here that specialist knowledge is exchanged and selected topics will be addressed in-depth.

Benefit from this excellent platform to discuss new technologies and innovative applications with experts on automation and drives technologies.

Arrange your individual conference program following your interests and check out our early bird rebates.

Please note that the conference language is mainly German.

Exhibition

As the leading special interest event for electric automation technology SPS/IPC/DRIVES is the annual highlight for both exhibitors and visitors.

Here, the automation industry presents itself to all users, who are searching for automation solutions.

Benefit from this comprehensive offer!

Gain a unique overview on the whole range of electric automation including all components down to complete systems. Profit from more than 1,300 exhibitors. They all show new products, real solutions and the latest trends in eleven exhibition halls.

Be part of SPS/IPC/DRIVES 2008!

This exhibition offers you the perfect platform for evaluating the products and solutions presented by the different exhibitors. Detailed expert talks with competent contact persons give you the possibility to find the ideal answer for your individual automation task!

Experience the complete world of electric automation – in one place!

Exhibition Topics

- ▶ Control Technology
- ▶ IPCs
- ▶ Drive Systems and Components
- ▶ Human-Machine-Interface Devices
- ▶ Industrial Communication
- ▶ Industrial Software
- ▶ Interface Technology
- ▶ Electromechanical Components and Peripheral Equipment
- ▶ Sensor Technology

Key Topics 2008

- ▶ Ethernet in Automation
- ▶ Safety and Security in Automation
- ▶ Motion Control

These three key topics are of particular importance within the automation industry and will therefore be focussed on throughout the whole event:

Exhibition - your source of information on products, applications and solutions on these topics.

Panel discussions – experts discuss the mentioned themes on the two forums in hall 2 and 8.

Conference - the key topics play an important role in the conference program.

Special topics within the conference and the forums are:

- ▶ Wireless in Automation
- ▶ RFID in Automation
- ▶ Web in Automation

Please note that most events are held in German.

The complete programs are available at www.mesago.com/sps

Special Exhibition Features

Panel Discussions and Vendor Presentations

Exhibition forum in hall 2, booth 2-461

Exhibition forum of the ZVEI in hall 8, booth 8-504

Interesting and exciting panel discussions on up-to-date automation issues take place here directed by publishing houses and associations. Furthermore exhibitors present their newest products and solutions for your individual automation task.

The complete program at www.mesago.com/sps link: »Vendor present.« and on site.

wireless in automation in hall 4A, booth 4A-520

Gain information on »wireless in automation« from the exhibitors as well as in the Speakers' Corner on this special area.

Identification and Avoidance of Plagiarism in hall 10, booth 10-310

The specialist association electric automation of VDMA offers valuable information on the topic »Identification and avoidance of plagiarism«. Partners on the VDMA joint stand show both projects and solutions and are available for expert talks.

Web in Automation in hall 8, booth 8-500

The specialist association AUTOMATION of ZVEI provides the opportunity to test several web technologies for certain automation tasks.

The admission to the above mentioned activities is free of charge!

Please note that most forum events are held in German.
