

Description

The CA-FC5-W4-NC discrete wire encoder cable has a 5-pin female polarized finger-latching connector on one end of 4 individual discrete 22 AWG wires; the other end is unterminated. This cable is typically used to connect a single-ended encoder to a terminal strip or a customer-supplied connector. This cable does not convey the index signal, and is usually used with non-index encoders.

Pin-out

Pin	Description	Color
1	Ground	Brown
2	-	-
