## Notification Description (Including Extent, Purpose / Reason, and Effect on Form, Fit and Function)

US Digital is aware of the increasing attention to world-wide environmental regulations, specifically with regard to the need for hazardous substance restrictions in electronic components and systems. As of July 10<sup>th</sup>, 2014 US Digital will now be CE Marking certain products inline with compliance under RoHS Directive (2011/65/EU). In order to achieve RoHS Compliance, the products will not contain more than the acceptable levels of the listed restricted substances within the ROHS 2011/65/EU directive.

US Digital products that are compliant with RoHS Directive 2011/65/US and inline with Decision 768/2008/EC will have an EU Declaration of Conformity sent with each shipment.

Together with third party professional advisers, US Digital has reviewed the Directives required for Decision 768/2008/EC (CE Marking) and determined that we are only responsible for the RoHS Directive 2011/65/EU. Under product evaluation it was deemed that the Low-Voltage and EMC Directives were not required for all US Digital products with the exception of the those part numbers / product families listed above in "Part Numbers Affected". For the part numbers listed above, US Digital cannot confirm that they meet Low-Voltage and EMC Directives and for that reason US Digital cannot support shipping those products / product families into the CE required countries (For Example countries in the EU). Those products can still be shipped to Non-CE required countries with a Statement of Material Conformance to the RoHS Directive 2011/65/EU, in place of a RoHS Compliance Declaration.

\*Custom Products will require specific compliance review and verification by US Digital.

## Alternate Parts (as applicable)

Click here to enter text.

## Effective Date (Including Last Time Buy Date and Conditions, as applicable)

Date of last order acceptance: July 7, 2014 for last shipments: July 10, 2014 (All purchase orders are non-cancelable and non-returnable). \*US Digital's Customer Communication of Product/Process Changes complies with the basic commercial practice quality requirements, under the JEDEC standard.
